

ORTHOLOC® 3Di

Foot Reconstruction System

1st Metatarsal Plate

Anatomic 1st metatarsal plate for fracture and osteotomy fixation

- **Anatomic Design:** Low profile contours designed to match the unique anatomy of the first metatarsal
- **Compression:** Ramp design compression slots provide added compression across first metatarsal osteotomies and fractures
- **Versatile Technology:** 2.7 and 3.5mm polyaxial locking and non-locking screws provide a wide range of fixation options
